86 87	Cir. R. 26.1-2 and 26.1-3	The Judicial Conference of the United States has adopted a policy requiring the use of automated conflict screening software to assist judges in identifying financial conflicts of interest. The Court proposes these revisions to aid the process of automated conflict screening by: (1) obtaining relevant information about interested parties from counsel at the earliest possible date; (2) requiring counsel to enter relevant information into the automated financial conflict screening program; and (3) requiring counsel to continually update that information.
115	Cir. R. 31-2	A technical correction is proposed to delete the reference to motions to file out of time in the title of the rule. As a result of previous changes to the rule, it no longer addresses motions to file out of time.
116	Cir. R. 31-5	Proposed revision to clarify when an electronic brief must be uploaded to the Court's website.
121	Cir. R. 32-3	Proposed revision to clarify that no substantive changes are permitted to a brief that is returned to counsel for format corrections.
125	Cir. R. 33-1(a)(3)	Proposed revision to clarify that a Civil Appeal Statement need not be filed in an appeal in which any party is proceeding pro se or is incarcerated.
